For stockists see Address Book.

BATHING NOTES

Caramel, coffee and chocolate tones are essential ingredients in this romantic relaxing zone.

DESIGNER CHELSEA HING "This ensuite bathroom was a new addition to the main bedroom suite so we were free to imagine the space as a luxurious country bathing retreat. The generous bath, fit for two, anchors the main view, with the wet zone and WC space bookending the other. The central vanity in sandblasted oak echoes the country surrounds." *What luxury item did you choose for this space regardless of budget?* "A favourite element of this ensuite would have to be the custom-made bath with its waxy concrete finish. Its organic shape and form lend a beautiful romanticism to the space." chelseahing.com.au

DINE IN

Exceptional attention to detail ensures this well-equipped kitchen truly is the heart of the home.

DESIGNER CHELSEA HING "This kitchen was designed as the ultimate cook's companion! Full to the brim with all the practical considerations for a keen cook, with storage for days and everything to hand, while creating personality and sophistication in the centre of the house where this family spends all their time together." *What is your favourite kitchen design element?* "My favourite would be the island bench with the custom-designed book-edge detail on the stone and the barley twist leg. The client wanted a bespoke kitchen full of colour, pattern and whimsy. These details brought a strong personality to the space without overpowering it." chelseahing.com.au
